The authors of “Face-to-Face Versus Mobile Versus Blended Weight Loss Program: Randomized Clinical Trial” (JMIR Mhealth Uhealth 2018;6(1):e14) would like to change the Acknowledgments section of their paper to the following:

This project is partially funded and realized in collaboration with imec, Belgium. BrandNewHealth developed the weight loss app.

The corrected article will appear in the online version of the paper on the JMIR website on March 15, 2018, together with the publication of this correction notice. Because this was made after submission to PubMed or Pubmed Central and other full-text repositories, the corrected article also has been re-submitted to those repositories.
